

**Ode an den Herbst**  
Acrylic on canvas 40 x 40 cm

*"I am a veterinarian and since childhood, I was fascinated by the wonders of nature with all its diversity and living inhabitants. Painting some examples out of this richness is my contribution to showing the beauty around us and is also the attempt to give at least my painted animals a soul, which is neglected by most of us. It is also an expression of my wish to protect all creations and to demonstrate what we lose if we destroy it."*
